

Oklahoma Natural Areas Registry

Oklahoma Natural Areas Registry Internship in Conservation Biology

BOT 3990, Sec. TBA

Independent Study: Internship in Conservation Biology

**Get academic credit for working to
conserve Oklahoma's natural plant
and animal communities.**

Instructor: Priscilla Crawford, Conservation Specialist,
Oklahoma Biological Survey
Office: SC Bldg 134, 111 E. Chesapeake St., Room #244
Phone: 325-7658
Email: prill@ou.edu

Grading: letter

Credit: 1-3 hours. Each hour of credit requires 50 hours of
work during the semester. At the end of the semester, a 2-
3 page summary of experience will be turned in.

Prerequisites: Application to the OBS Internship
Program, permission of the instructor

Schedule: Schedules will be arranged individually

About the Program: Outstanding examples of Oklahoma's
natural diversity can be found on lands owned by private
citizens, corporations, agencies, and organizations. The
Oklahoma Natural Areas Registry encourages citizen-based
conservation of these special natural areas and recognizes
landowners who are committed to such conservation. From
Texas horned lizards, burrowing owls, and gray bats to orchids,
red buckeyes, Tallgrass prairies and granite outcrops,
Oklahoma landowners are working to protect these and other
natural elements of our state.

Potential projects:

- ⌘ Assist in botanical inventory of natural areas
- ⌘ Visit natural areas and assist in their evaluation
- ⌘ Develop and maintain database of registered natural areas
- ⌘ Write short articles for program newsletter
- ⌘ Create maps using GIS geodatabases

The Oklahoma Natural Areas Registry is a program of the Oklahoma Biological
Survey. www.biosurvey.ou.edu/heritage/registry.html
